FAX (541) 469-4111

## CARDLOCK PROGRAM

Colvin Oil Company is now a member of the CFN cardlock network. This network has aggressive growth plans and plans to be nationwide as quickly as possible. There are presently over 1800 locations in 33 states where you can purchase fuel if you have a card issued by Colvin Oil Company.

We bill our customers semi-monthly, with payment due upon receipt of statement, and all purchases you make with our card, at any CFN location nationwide, will be included on our billing. We itemize your purchases in an invoice format which shows dates, vehicle numbers, type of product, number of gallons and locations for each transaction you make.

We are capable of handling both taxable and non-taxable transactions at any location where they may occur, and all applicable taxes charged at all locations are itemized on your semi-monthly invoice. We also can show vehicle description and drivers' names if you wish such information.

We offer our customers a choice of either 1 or 2 card transactions depending on their need for internal control over purchases. We also offer to customers in good standing the following volume discount plan based on semi-monthly gallons purchased at any location, by product:

250-499 gallons .....	\$ 0.01 per gallon discount
500-999 gallons .....	\$ 0.02 per gallon discount
1000-1500 gallons .....	\$ 0.03 per gallon discount
1501-2499 gallons .....	\$ 0.04 per gallon discount
2500- over gallons .....	\$ 0.05 per gallon discount

The only state-imposed restrictions on cardlocks exists in Oregon. Effective October 1, 1991 the operator of a cardlock is required to have a written agreement for Gasoline purchases (not applicable to diesel) certifying that the customer will:

- 1) Purchase at least 900 gallons per year
- 2) Satisfy safety training requirements
- 3) Provide proof of being a business (federal I.D. number or business license)

There is also a \$5.00 per year fee per customer which will apparently be used by the Oregon Fire marshal to hire more employees and those new employees will be enforcing the provisions of the new Oregon Law.

For further information and answers to any questions you may have, just call the Grants Pass plant at the number listed above.
